EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Craig Slavin on January 28, 2006.

The application has been amended as follows:

Claim 23 has been cancelled.

In claim 26, line 1 "in claim 23" has been deleted and -- in claim 28 -- has been inserted.

In claim 27, line 1 "in claim 23" has been deleted and -- in claim 28 -- has been inserted.

In claim 28, line 1 "myocardial revascularization" has been deleted and -- A myocardial revascularization-- has been inserted.

Reasons For Allowance

The prior art of record does not disclose or fairly suggest a method for myocardial revascularization and denervation using an electrode with portion that is placed on the epicardial surface of a ventricle and a needle portion that penetrates the ventricular wall, and transmitting energy from the electrode to create a lesion within the ventricular wall. U.S. Patent 5,554,152 to Aita et al. teaches myocardial revascularization using a laser from the pericardial surface and suggests using RF as an alternative, but does not disclose a needle for piercing the ventricular wall. U.S. Patent 6,474,340 to Vaska et al. teaches a device and method for producing lesions on the pericardial surface of a ventricle, but has no teaching for a needle means for creating lesions within the ventricular wall.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Henry M. Johnson, III whose telephone number is (571) 272-4768. The examiner can normally be reached on Monday through Friday from 6:00 AM to 3:00 PM.
